2008 CATALOG ¥ ELECTRICS AND ACOUSTICS

THE ANATOMY OF PERFECT SOUND

EFFORTLESS PLAYABILITY

Ranging from 3-1/2 to 6 pounds and impossibly slender, Parker guitars give many people the impression that our instruments are made from some kind of space-age plastic. The truth is, we use lightweight tone woods of the highest quality and reinforce them with a layer of composite that's thinner than the paint job. The result of this unique combination is a guitar that's responsive, lightweight and perfectly balanced while sitting or standing, with no dead spots or unevenness in tone.

MULTIPLE PERSONALITIES

Parker's combination of DiMarzio® or Seymour Duncan® magnetic pickups and Fishman® piezo pickups makes it possible to produce powerful electric guitar tones and intricate, full-bodied acoustic guitar tones. Parker, Fishman®, and DiMarzio® worked hand-in-hand to develop both the unique pickups and the unique mounting systems used to attach and adjust them. Our pickups are mounted firmly to the body with pole-piece screws instead of plastic rings, springs, and screws that float the pickups in oversized cavities. The results of this solid connection are superior tone and less chance of pickup squeal at high volume.

PRECISE TONES

Set neck? Bolt-on neck? Our unique multi-finger neck joint combines the best of both into a slender, lightweight neck that ensures optimum resonance from the body and neck tone woods and resists the warping that throws lesser guitars out of tune within a year or two. Our patented neck design also eliminates the clumsy heel for smoother, more comfortable upper-fretboard access.

- 5 MAG PICKUP SWITCH

QUICK-CHANGE ARTISTRY

Large hall? Micro stage? Enclosed studio? The smart jack on our active preamp senses your cable type (stereo or mono) and either splits the electric and acoustic sounds and sends them to separate amps, or combines them and plays both through a single amplifier. Our mixer circuit allows the volumes and tones of the electric and acoustic sounds to be mixed on the fly.

PERFECT PITCH

Our high-performance vibrato system can be quickly adjusted to behave like a fixed bridge, bend-down only, or floating bridge (bending both up and down). The bridge pivots like liquid silk on ball bearings.

EVEN RESPONSE

Quite possibly the smoothest, fastest-playing neck in the business, ours is constructed from a solid piece of basswood or mahogany. With bridge components of cast aluminum and stainless steel, it's a bulletproof package that's easy to adjust. The paper-thin triaxial carbon/glass-fiber reinforcement supports the vibrant wood structure, resulting in an amazingly responsive and stable, yet incredibly lightweight, guitar with even tonal response. It's a patented construction you won't find anywhere else.

SILKY-SMOOTH FRETTING

Our fretboard system consists of long-lasting hardened stainless steel frets (not the soft nickel of ordinary guitars), manufactured to precise tolerances in the correct "half-round" shape and bonded to our patented glass/carbon-fiber fingerboard. The composite surface is quite unlike a conventional wooden fingerboard and gets slicker with sweat, not tackier.

NO-FUSS ADJUSTMENTS

The Parker truss rod—only 1/6th the weight of conventional rods—adjusts the neck easily to accommodate string gauges from .008" to .013" as well as different tunings. The lighter-weight rod is another reason why Parkers are so perfectly balanced and comfortable to play.

LOCKED-DOWN TUNING

Sperzel® tuning pegs are, without a doubt, the highest quality pegs available, combining excellent quality and design with minimal weight. In fact, the lightweight aluminum construction of our tuning pegs is key to the fine balance of Parker guitars. Bob Sperzel's patented locking device helps to keep guitars in tune, even with the most aggressive, merciless flogging, and makes string changes fast and painless.

SCULPTED SHAPE BODY RANGING IN THICKNESS FROM 1/2" – 1-1/2"

WEIGHT: 5 POUNDS

2 VOICES, OR 2000

Parker's dual pickup systems work together to deliver electric, acoustic, or a mix of the two sounds. Our custom DiMarzio® or Seymour Duncan® magnetic pickups produce powerful electric guitar tones while our Fishman® piezo pickups, designed by Larry Fishman specifically for Parker, sense each string individually, providing the lush, complex tones of an acoustic guitar. The two systems are blended by a stereo preamp that allows you to mix the volumes and tones on-board. A "smart" switching jack senses stereo or mono cable and routes the signals accordingly.

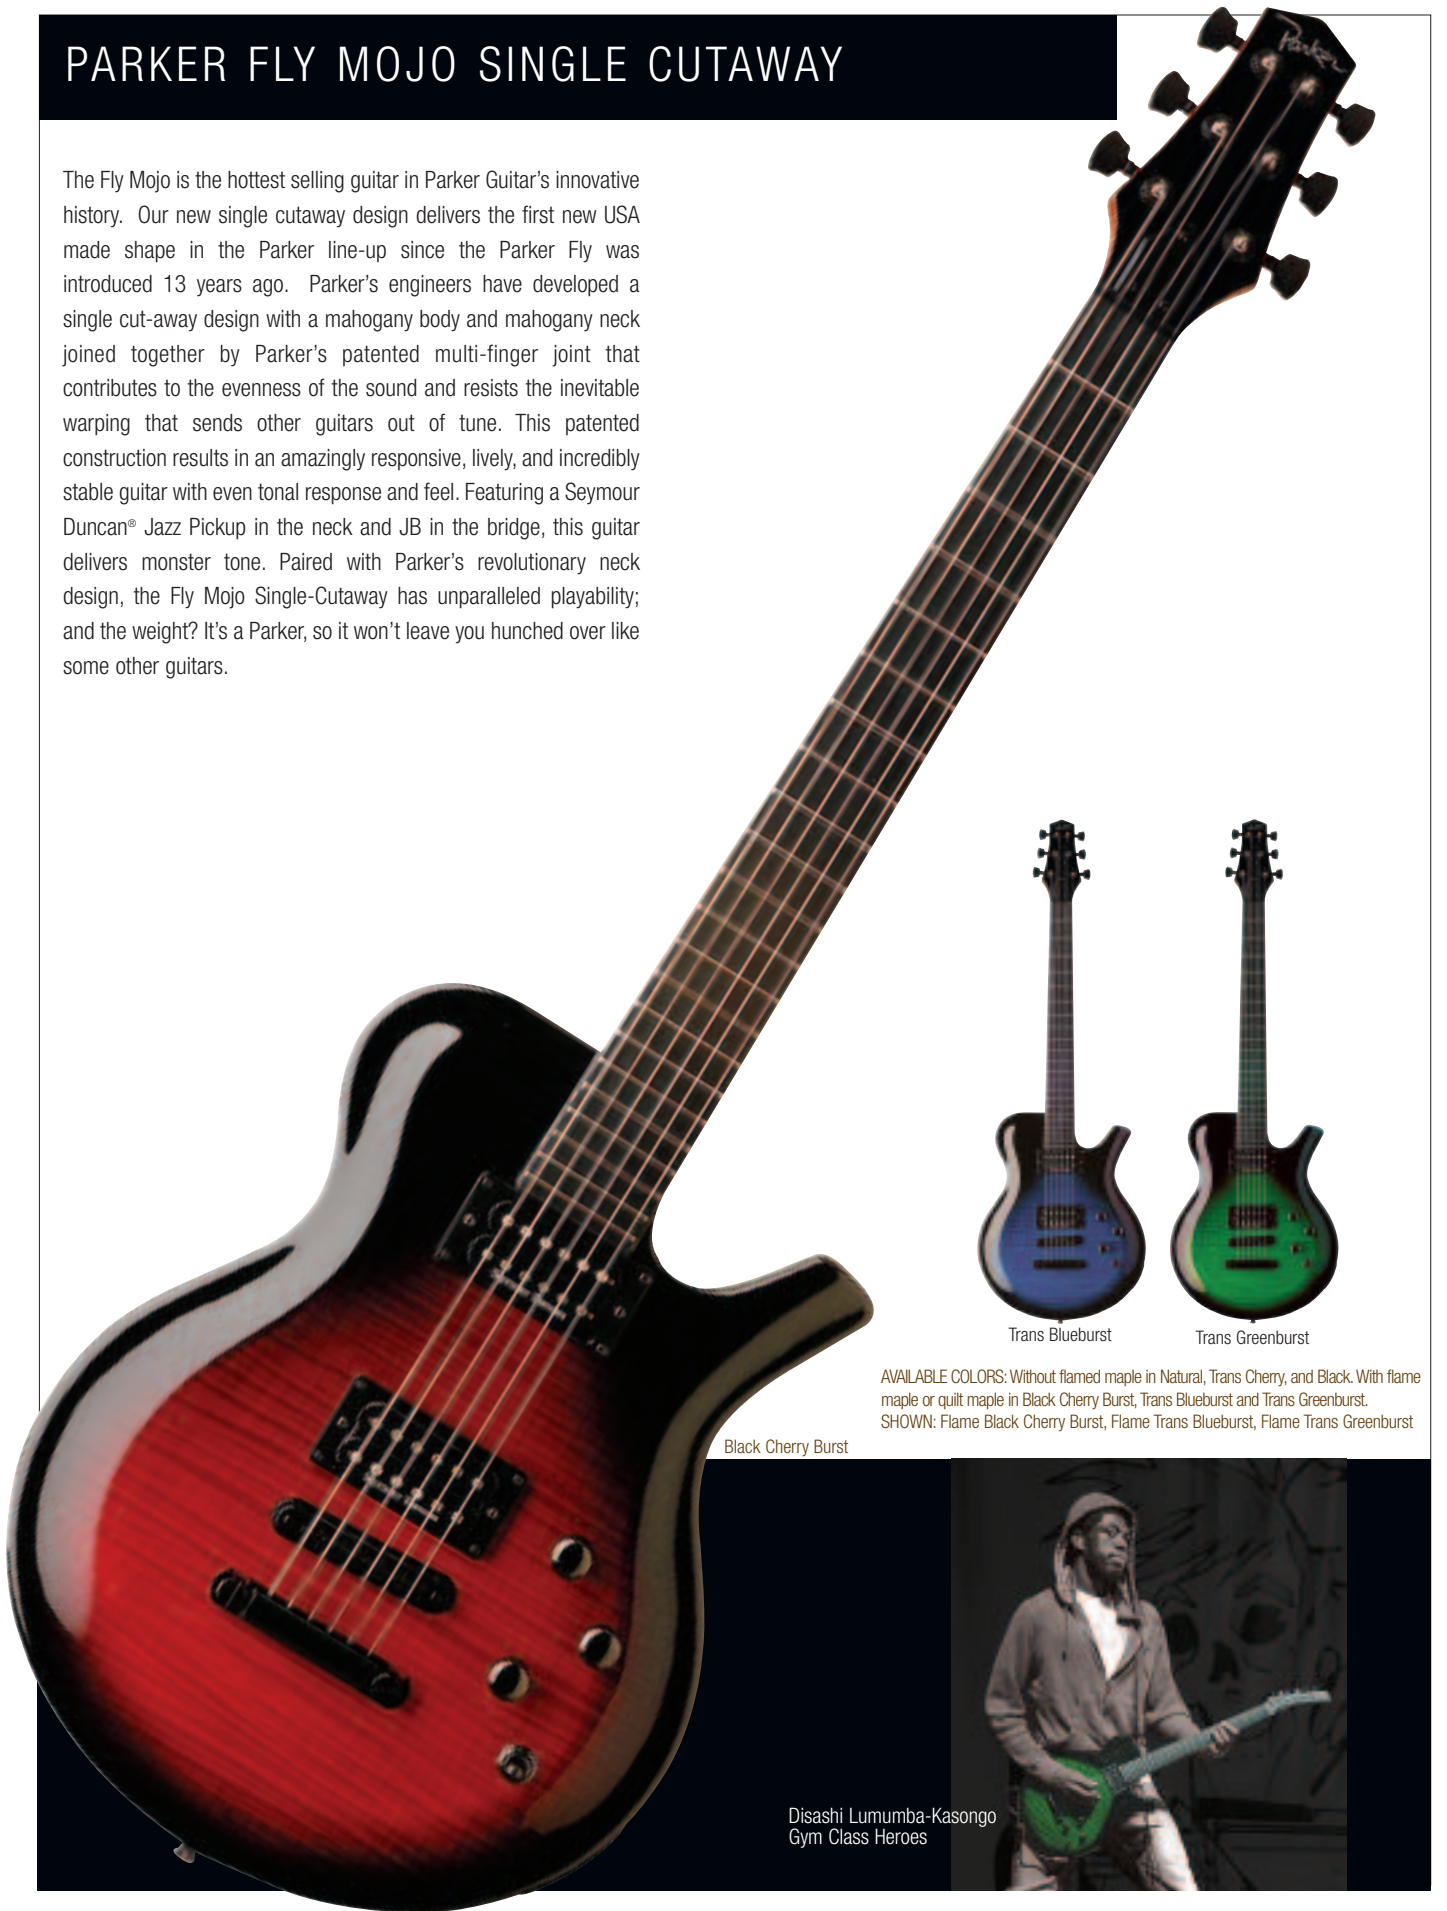

UNCOMPROMISED VIBE

The point at which a guitar neck meets the body is the Bermuda Triangle of sound. Not only is it where vibrations traditionally disconnect as one material meets another, it's also the point where alignment goes haywire due to the sheer physical stress. Ken Parker solved all of that with our revolutionary, multi-fingered neck joint. A marvel of physics, it contributes to the evenness of the sound and resists the inevitable warping that sends other guitars out of tune.

PARKER FLY MOJO SINGLE CUTAWAY

The Fly Mojo is the hottest selling guitar in Parker Guitar's innovative history. Our new single cutaway design delivers the first new USA made shape in the Parker line-up since the Parker Fly was introduced 13 years ago. Parker's engineers have developed a single cut-away design with a mahogany body and mahogany neck joined together by Parker's patented multi-finger joint that contributes to the evenness of the sound and resists the inevitable warping that sends other guitars out of tune. This patented construction results in an amazingly responsive, lively, and incredibly stable guitar with even tonal response and feel. Featuring a Seymour Duncan® Jazz Pickup in the neck and JB in the bridge, this guitar delivers monster tone. Paired with Parker's revolutionary neck design, the Fly Mojo Single-Cutaway has unparalleled playability; and the weight? It's a Parker, so it won't leave you hunched over like some other guitars.

PARKER FLY MOJO

The Mojo Series is the result of not only Ken's vision and the employees of Parker, but input of the many players of Parker guitars. The Mojo Series is a combination of many ideas, desires, and thoughts to create

guitars and basses with special warmth and magical tone. With a Mojo guitar or bass, you will find an instrument that is designed to cast spells and influence others through its spectrum of sound.

Examine the sensuous sweep of the body curve where it meets the neck. Your hand finds unlimited access to every note. Underneath those curves is Parker's multiple-finger joint. Wrapped in a thin veil of carbon and glass, it provides a unique connection between the neck and body that is rock solid and will remain true for years to come.

FLY MOJO FLAME®

The Fly Mojo Flame/Quilt not only delivers warm full tones, but will light your soul a flame with Parker's unique AAA flame maple skin over a solid mahogany body allowing the sound of the mahogany to fully resonate through. It also comes with a mahogany neck and Seymour Duncan Jazz and JB pickups. Also available in quilt maple.

AVAILABLE COLORS: Trans Blue Burst, Trans Green, Black Cherry Sunburst, 3 Tone Sunburst, Purple Burst, Black Burst
SHOWN: Black Cherry Sunburst

FLY MOJO®

The first of the Mojo Series, the Fly Mojo delivers warm full tones and a heavy full-bodied sound. It's unique sound comes from a solid mahogany body, a mahogany neck, and Seymour Duncan® Jazz and JB pickups combined with Parker's superior engineering and personal attention to quality.

AVAILABLE COLORS: Natural Mahogany, Trans Cherry, Dusty Black, Italian Plum, White

PARKER FLY

This is the breakthrough, top-of-the-line guitar that has been chosen by many of the world's finest and most respected players since it was first introduced back in 1992. Sleek, balanced, and incredibly responsive, the Parker Fly is absolutely unmatched in its range of electric and acoustic sounds. Weighing in at about 5 pounds, each Fly model has a unique voice all its own. Whether your music leans toward modern growl, low-down blues, or chunky-funky reggae, there's a Parker Fly that will shift your music—and your playing experience—into overdrive.

Tangerine Belew

Custom Signature Model
Available

FLY CLASSIC®

The one-piece mahogany body with reinforced basswood neck delivers extra power for a fabulous mid-range and incredible low-end response. Combined with Parker engineering and our custom electronics, it's a favorite for creamy crunch and warmer tones.

AVAILABLE COLORS: Trans Cherry, Natural Mahogany, Dusty Black, Powder Blue, Emerald Green

SHOWN: Trans Cherry

FLY DELUXE®

The one-piece poplar body delivers the edgy, immediate tones characteristic of R&B, rock, and country-western. Engineered as only Parker can, our reinforced basswood neck gives you unmatched access to the fretboard and your music.

AVAILABLE COLORS: Dusty Black, Heather Gray, Majik Blue, Ice Blue Burst, Ruby Red, Emerald Green, Tangerine, Galaxy Gray

SHOWN: Majik Blue

PARKER NITEFLY SERIES

One of the boldest guitars ever made, the Parker NiteFly features a different solid tone wood body in every model, allowing you to achieve the exact nuance your music demands. The perfect neck proportions, glassy-smooth fretboard, and low action make even the most complex chording smooth and effortless. Its sure responsiveness begs you to take your music where it's never gone before. With its Fishman®/DiMarzio® or Fishman®/Seymour Duncan® custom piezo/magnetic pickup system, you can switch instantly from a thrashing metal sound to soaring acoustic tones or mix them on-board as you play. Bottom line, it is a dream machine that packs more sounds than any bolt-on electric guitar known to man.

Most bolt-on neck joints are square. Why? Because that's the way it's been done. But that neck shape creates a natural hinge which often leads to the fret alignment problems common to bolt-on guitars. Not anymore. All Parker NiteFly guitars have a round neck shape that's round all the way to the end; no natural hinge, no alignment problems.

NITEFLY MOJO FLAME®

The NiteFly Mojo Flame not only delivers warm full tones with a gutsy edge from its mahogany bolt-on neck, it will light your soul a flame with a traditional AAA flame maple top over the solid mahogany body. The carved maple top adds high-end crispness and sparkle to the sound. It also comes with Seymour Duncan Jazz and JB pickups with classic chrome covers.

AVAILABLE COLORS: Cherry Sunburst, Trans Blue Burst, Green Burst, Purple Burst, Black Burst
SHOWN: Trans Blueburst

NITEFLY MOJO®

With its mahogany bolt-on neck, the NiteFly Mojo not only delivers warm full tones, but has a gutsy edge. It's unique sound comes from its solid mahogany body and Seymour Duncan Jazz and JB pickups combined with Parker's superior engineering and personal attention to quality.

AVAILABLE COLORS: Natural Mahogany, Trans Cherry, Dusty Black, Emerald Green, Galaxy Gray

PARKER NITEFLY SERIES

SOUTHERN NITEFLY

The Southern NiteFly features a beautiful swamp ash body and solid maple neck matched perfectly to a vintage look. Featuring Seymour Duncan® pickups, the Southern NiteFly delivers all the vintage tones you'd expect. With custom Fishman™ piezos built into a Fishman Powerbridge™, vintage tone can be paired with acoustic sound for unlimited tonal possibilities, and because it is an American made Parker, the Southern NiteFly has our revolutionary playability at a weight that won't break your back.

AVAILABLE COLORS: Transparent Red, Blonde, Butterscotch, Antique Gold, Sunburst
SHOWN: Butterscotch

Eric Church Band

PARKER NITEFLY SERIES

NITEFLY CLASSIC

Solid mahogany from tuners to bridge, the NiteFly Classic embodies all the qualities that have made mahogany the king of tone woods since the beginning of time. This guitar makes music soar with a sweet, full mid-range and singing upper register that's both beefy enough for jazz and raw enough for crushing chords or rock and blues solos. The chunky neck and jumbo frets will make your hands feel right at home. Finished with nothing more than a satiny oil and wax finish, it just begs to be played

AVAILABLE COLORS: Natural, Black, Tobacco Sunburst, Cherry Sunburst, White
SHOWN: Natural

NITEFLY-SA

The ultra-light swamp ash body of the NiteFly-SA has a lively, fast response that's ideal for clean pickin' and cut-it-with-a-knife rhythms. Swamp ash is lighter in weight and more porous, producing a resonance that is fuller and less severe than what can be achieved with regular ash or other heavier woods. Its sound is guttural and clean, yet swampy and spicy, thanks to that swamp ash magic. Combined with its solid maple neck, the NiteFly-SA produces a ballsy low end and wonderful, glimmering highs. Also available in SSS configuration.

AVAILABLE COLORS: Trans Red, Trans Blue, Natural
SHOWN: Trans Blue

PARKER SELECT

Available only from Parker dealers, Parker Select models are built by master builders trained personally by Ken. Each has a unique feature set, making these some of the most exclusive guitars available anywhere. With their fully loaded pickup/preamp/vibrato system, the Supreme and Artist deliver Parker's complete sound spectrum, but in unique voices resonating from different tone wood bodies. The Nylon Fly and Bronze Fly are one-of-a-kind solid body acoustic guitars. The Nylon is unique among amplified, nylon-string classical guitars for its stunning balance across all six strings. The Bronze Fly delivers a clear acoustic voice at any volume. The Fly Artist, Nylon Fly, and Bronze Fly are the only electric guitars in the world with bodies of solid Sitka Spruce.

NYLON FLY

Unlike the other models in the Select line, this extraordinary Fly is designed to support nylon strings—and anyone familiar with other electric nylon guitars will be blown away by its powerful response and luminous tones. To complement the knockout finish, we've housed the specially designed Fishman® pickup in a handmade ebony bridge with an abalone inlaid tie block. Gold-plated Sperzel® pegs and ebony knobs make this guitar a real dazzler. AVAILABLE COLORS: Transparent Butterscotch

BRONZE FLY

Weighing in at only 3-1/2 pounds, this is the perfect choice for the performing acoustic guitar player. The Bronze Fly body is made from a single piece of old-growth Sitka Spruce with a 24-fret reinforced basswood neck. Designed to be the ideal platform for Larry Fishman's breakthrough piezo pickup and active filtering preamp, count on sparkling, warm tones, clarity, and exceptional note separation without feedback at any volume. AVAILABLE COLORS: Transparent Butterscotch, 3 Tone Sunburst

FLY SUPREME

Brilliant in its sound, the Fly Supreme body is crafted from a single piece of "big leaf" figured maple—one of the most beloved of fancy tone woods—with a 24-fret reinforced basswood neck. The maple sings out straight to the sky with powerful tones, a strong fundamental, and fast response. Crisp and balanced, it's the perfect choice for players wanting creamy, powerful distortion and clear high-end.

AVAILABLE COLORS: Transparent Honey, Ocean Blue, Trans Green, Trans Purple

FLY ARTIST

The Fly Artist is made from a single piece of solid, vertical-grain, old-growth Sitka Spruce, which showcases and enriches the piezos more than any other body material. The 24-fret reinforced basswood neck completes the sonic equation, creating thicker, warmer, more complex tones and a gigantic bottom end that will send your music to new levels of luscious crush. The piezo tones are the most natural and transparent you'll find anywhere. Truly in a class by itself, the Fly Artist will draw out and display your musicianship.

AVAILABLE COLORS: Transparent Butterscotch, 3 Tone Sunburst

PARKER PM SERIES

PM-20PRO

A professional version of the PM20, the Pro features significant upgrades to the best selling PM20. Featuring a Seymour Duncan® JB humbucker in the bridge position and a Seymour Duncan Jazz humbucker in the neck position with dual coil-tapping, the Pro provides a versatility of tones sure to make you rock. Sperzel® locking tuners and a Tone Pros® bridge are also stock features giving this guitar high-end qualities that are unmatched at this price point.

AVAILABLE COLORS: Flame Honey Burst, Pearl White, Black
SHOWN: Flame Honey Burst

PM-20

ALL NEW SHAPE! BEST OF BOTH WORLD'S - TRADITION MEETS PARKER

The PM-20 delivers the first new shape in the Parker line-up since the Parker Fly was first introduced 13 years ago. Born out of innovative Parker engineering, the PM-20 is a single cutaway design with a mahogany body and mahogany set neck. With over the top crunch tones, the PM-20 also delivers a glistening clean sound. Coil-tapping is a standard feature on this guitar for single-coil tones.

AVAILABLE COLORS: Quilted Bubinga, Gold Top, Tangerine Belew, Flame Maple Traditional Sunburst
SHOWN: Quilted Bubinga

PM-24V

PARKER TECHNOLOGY MEETS VINTAGE LOOK AND SOUND

The PM24V delivers the quality and tone you expect from the PM20 with the added benefit of the Parker Vibrato with Fishman piezos for even more versatility. No limits here. Use the piezos for a realistic acoustic sound or mix it up with the humbuckers for a new dimension.

AVAILABLE COLORS: Green Burst, Cognac, Black
SHOWN: Black

PARKER P SERIES

P-36

PARKER TECHNOLOGY MEETS VINTAGE LOOK AND SOUND

The P-36 has all the signature capabilities of the high-end Parker Fly in a beautiful ash body with maple bolt-on neck. The playability mirrors that of its vintage predecessor. Count on the piezos for a very realistic acoustic sound, and then mix them with the magnetics for a hybrid that introduces a whole new dimension to music.

AVAILABLE COLORS: Trans Cherry, Blonde, Natural Ash

SHOWN: Natural Ash

P-42

With a solid mahogany body and maple bolt-on neck, the P-42 screams with lightening fast response and a sweet, full mid-range and singing upper register. Custom wound Parker Stinger Pickups deliver plenty of sustain and grind while the coil tap gives you single-coil tones.

AVAILABLE COLORS: Metallic Grey, Black

SHOWN: Black

P-44V

The P-44 has all the signature capabilities of the high-end Parker Fly in a beautiful solid-mahogany body. When it comes to sound, its tonal range is mind-blowing. The humbuckers deliver twang and shimmer with plenty of attitude. The split coil lets you get a pseudo-single-coil sound with zero hum. Count on the piezos for a realistic acoustic sound, then mix them with the magnetics for a hybrid that introduces a whole new dimension to music.

AVAILABLE COLORS: Trans Cherry, Black, Natural Mahogany,

SHOWN: Natural Mahogany

P-44PRO

The P44PRO sports upgrades that make it worthy of the most seasoned Professional. Featuring the Seymour Duncan JB at the bridge and Jazz at the neck with dual coil tapping, this guitar offers unmatched tone and versatility. Sperzel locking tuners and the Parker Vibrato with Fishman piezos are standard.

AVAILABLE COLORS: Trans Wine Red, Trans Green, Natural Mahogany,

SHOWN: Trans Green

"The Nitefly is hands down the best guitar ever made."

SHOWN: Sunburst

PARKER EVENT™ SERIES GUITARS

Here at Parker, most employees are also guitar players with a good portion being acoustic players, therefore, the desire to develop an acoustic always existed. The development of the Event Series was the result of a collaboration of our talented design staff in conjunction with our luthiers. Working closely with Larry Fishman, we developed a pickup system that is exclusively designed for Parker and is second to none.

BALANCE
BASS

VOLUME

P8E ELECTRIC ACOUSTIC GUITAR

Features a Solid Cedar top with Flame Maple back, a Mahogany Neck, and an Ebony fingerboard and bridge.

P9E ELECTRIC ACOUSTIC GUITAR

Features a Solid Cedar top and Indian Rosewood back.

P10E ELECTRIC ACOUSTIC GUITAR

The P10E features a Solid Spruce top and Birdseye Maple back and sides.

Larry Coryell
P8E

PARKER EVENT™ SERIES GUITARS

P7EQS ELECTRIC ACOUSTIC GUITAR

The P7E Event Series Guitar features a Quilted Sapele Top, Mahogany Back and Sides, and a Fishman Pickup System designed exclusively for Parker.

PARKER INTRIGUE™ SERIES GUITARS

The early success of our Event™ Series has led us to develop an all acoustic series aimed at the acoustic purist. The woods used in the construction of these guitars are taken from sources all around the globe and include solid spruce, cedar, birdseye maple and rosewood. With a folk size body, these guitars produce a full, balanced, articulate tone, and are well suited to the seasoned professional.

PA28 ACOUSTIC GUITAR

Features a Solid Cedar top with Solid Rosewood back and sides, and an Ebony fingerboard and Rosewood bridge.

UNIQUE PARKER INLAYS

GROVER 14:1 STA-TITE TUNERS

PARKER INTRIGUE™ SERIES GUITARS

The Intrigue Series guitars all feature a zero fret for stable tone even when chord voicings include open strings. A bass balanced bridge adds solid punch and sustain, while Gold Grover 14:1 Sta-Tite Tuners maintain tuning integrity.

PA24 ACOUSTIC GUITAR

Features a Solid Spruce top with Birdseye Maple back and sides and an Ivoroid fingerboard and bridge.

PA22 ACOUSTIC GUITAR

Features a Solid Cedar top with Solid Sapele back with a Ebony fingerboard and Rosewood bridge.

PARKER BASSES

FLY BASS 5 STRING / 4 STRING

How low can you go? As low as you like with the Fly Bass 5 String. For a beefy, full-bodied slap sound, blend both pickups and boost the bass control. Or, solo the neck pickup for full-throttle, up-tempo funk.

AVAILABLE COLORS: Trans Red, Natural, 3 Tone Sunburst, Trans Blueburst
SHOWN: Trans Blueburst, Trans Red

PAB 40

Designed from the ground up, the Parker Acoustic/Electric bass represents a new level of quality and sound in a performance bass. Utilizing the same ground breaking body shape as our Event™ Series guitars, the PAB40 adds our patented feedback suppressing Soundslot design and features customized Fishman Matrix Bass System electronics. For the body we chose American Black Walnut for its deep sound qualities and added an integrated thumb rest for ease and comfort in play. An ebony fingerboard and bass balanced bridge add solid punch and sustain to this remarkable instrument. Our first acoustic bass may well be the last acoustic bass you'll ever own.

SHOWN: WALNUT

PARKER BASSES

The Parker Bass has landed. Even the most experienced axe handlers are in high gush mode, calling it "phenomenal," "astounding," "one of the best sounding basses ever heard," and the bass "that pushes our instrument's evolution one big step forward". Naturally, it features all of Parker's signature attributes, including an unmatched tonal spectrum, sonorous personality, and sensual playing experience. The Parker Bass also features active EMG pickups allowing for an array of tonal options. From grunge and rock to R&B and jazz, it's making seasoned bass owners mothball the rest of their collections.

A neck-thru body on the PB51 and the PB61 allows for the tension of the strings to be placed on one piece of wood providing for optimum note definition and superior sustain throughout the instrument.

PB61SP & PB65SP – 5 STRING

A Mahogany body with neck-thru construction combined with a brass nut provide extraordinary sustain, while a Spalted Maple top and gold tuners add a classy touch to a great bass.

AVAILABLE COLORS: Spalted Maple

PB51TR

A neck-thru Mahogany body provides for brilliant sustain while the Flame Maple top and trans red finish give this bass a great look.

AVAILABLE COLORS: Trans Red
